

Resistor Color Code: Yel = Yellow, Or = Orange, R = Red, Br = Brown, Bk = Black, W = White, Gry = Gray

All resistors are 1/4 Watt except for R35 (1 Watt), R51 (1/2 Watt), R56 (1/2 Watt)

Observe polarity on capacitor C26, CR21, and VR1.

Apply insulator (mica or thermal) between Q21 and its heat sink. Assure no continuity between the case of Q21 and its heat sink.

Be sure to install the finned heat sink on Q23, as shown in the picture above.

In the picture above, the fuse holder has been modified to accept standard sized 3AG fuses.
